HOW TO SET UP YOUR 4-H ONLINE LOG IN FOR THE FIRST TIME

Step 1: Visit: https://4honline.com/

Step 2: Scroll down to Forgot your password? Choose Ohio as your State.
Step 3: Enter the email you used when you initially registered for 4-H. Select I forgot my Password.

Note:

Every youth member and adult volunteer must enroll in 4-H each year. If you participated in 4-H in a previous year, you have a profile (even if you haven’t logged in before). DO NOT use the “I need to set up a profile” link. Creating a new profile will cause a delay in processing your re-enrollment.

Your login is your email address. If you do not know your password, please select “I forgot my password” and a temporary password will be sent via email.

If you are transferring to a new county, contact your county Extension Office to have your profile and enrollment history transferred to the new county.
Step 4: Log in with the temporary password provided. You will log in as a registrant in Ohio. Please select Family as your role.
